Shirley Paulson, PhD

Shirley Paulson's exploration and research into the 'Bible and Beyond' began with her Master of Theological Studies work at Garrett-Evangelical Theological Seminary, which led to her PhD in Religion and Theology from the University of Birmingham (UK).

The unique contribution of Shirley's work is the combination of her contemporary ecumenical work with research in early Christian thought and writings. Combining her experience in healing, theological scholarship, and Practical Theology with research in Biblical and extracanonical texts evokes ever-new questions and conversations for scholars, spiritual seekers, and Bible enthusiasts. The foundational text for her research is the *Secret Revelation of John*.

Shirley has over three decades of experience presenting lectures, classes, and workshops on early Christian texts. Since 2017 she has been the driving force behind Early Christian Texts (earlychristiantexts.com), an organization offering an assortment of online educational programs including a newsletter, articles, blog, podcast, discussion series, and adult learning courses.

Her first book, *Illuminating the Secret Revelation of John*, was published by Cascade Books in April of 2022.

Class Description

In-Depth Study of *The Thought of Norea: Christ's Sister Savior*

This very brief text from the Nag Hammadi Library inspires and challenges modern readers with every one of its brief 52 lines. Hardly anyone knows Norea today, but in antiquity she was known as the daughter of Adam and Eve, and she had characteristics quite similar to Christ. She presents an intriguing connection for humans to understand their own relationship with the divine. It is not clear why this text was lost for so long, but perhaps the world is ready to benefit from the words of a female savior today.

Understanding Norea's relationship between the human and divine looks like a spiritual healing practice, where helping others from the perspective of divine strength and wisdom can make a difference in the human situation.

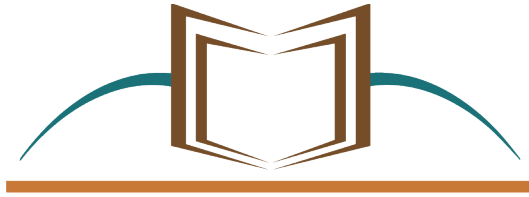

Dr. Hal Taussig and Dr. Shirley Paulson co-instruct the video lectures, and Dr. Paulson leads the discussions in person.
